

Ferrovial and Renault set up new car sharing service in Madrid

- The new car sharing service will be available from October 2017.
- It will commence with 500 electric vehicles.
- The service will be available within the M-30 beltway and in certain adjoining areas.

Madrid, 01/09/2017.– Ferrovial Services and Renault have signed an agreement to implement a car sharing service in Madrid. The project will start up with an initial fleet of 500 electric vehicles located within the M-30 beltway and in some adjoining areas.

This new car sharing service combines Ferrovial Services' capacities in the area of municipal services and environmentally-friendly solutions with Renault's experience as Europe's foremost supplier of electric cars and a leading brand in the field of sustainable mobility.

The Madrid car sharing service will use the new ZOE Z.E 40, an electric car with a rated autonomy of 400 km, which extends range and usage time. The cars also have a capacity of five seats

Further details prices and other characteristics of this new sustainable mobility service for Madrid residents will be released shortly.

About Ferrovial

Ferrovial is one of the world's leading infrastructure operators and municipal services companies, committed to developing sustainable solutions. The company has 97,000 employees and operates in over 20 countries. Its main business areas are: Toll Roads, Services, Construction and Airports. It is a member of Spain's blue-chip IBEX 35 index and is also included in the Dow Jones Sustainability Index and FTSE4Good; all its operations are conducted in compliance with the principles of the UN Global Compact, which the company adopted in 2002.

About Renault

Renault offers a full range of 100% electric vehicles that produce no CO₂, NO_x, carbon monoxide, small particles, smells or engine noise when on the road. Since it entered this market in 2011, it has sold over 100,000 units in Europe and is the leading brand in this segment. One out of every four all-electric vehicles sold in Europe at present is made by Renault, and the ZOE is the continent's top-selling model. Kangoo ZE is Europe's top-selling all-electric commercial vehicle.

Renault was Spanish market leader in 2016, having accounted for 17.1% of the total market in all-electric vehicles (cars, vans and quads). Kangoo ZE is Spain's top-selling zero-emissions commercial vehicle. Renault has sold over 4,000 all-electric vehicles since it entered this market in Spain in 2012.
